Emotion Recognition in the Wild 2016 challenge User Agreement

(Academic, non-commercial, not-for-profit licence)
Copyright (c) 2016 Abhinav Dhall, Roland Goecke, Jyoti Joshi, Tom Gedeon
All rights reserved.

The goal of the Acted Facial Expressions in the Wild database is to develop new techniques, technology, and algorithms for automatic facial expression analysis and recognition. The licensors are involved in an ongoing effort to develop this dataset of acted facial expression images. The dataset is meant to aid research efforts in the general area of developing, testing and evaluating algorithms for human face analysis.

To advance the state-of-the-art in facial expression recognition, this dataset is made available to the research community. To receive a copy of the dataset, the requestor must agree to observe the conditions listed below.

Use is permitted in source and binary form, provided that the following conditions are met:

- The database is provided under the terms of this license strictly for academic, noncommercial, not-for-profit purposes.

- Redistribution, republishing, or dissemination in any form, source or binary, is not permitted without prior written approval by the licensors. Linking to the webpage of the database, http://cs.anu.edu.au/few is permitted.

- The names of the licensors may not be used to endorse or promote products derived from this software without specific prior written permission.

- The licensors reserve the right to modify the data/license at any point. Modification of the database by licensees are not permitted.

- In no case should the still frames or video be used in any way that could cause the original subject embarrassment or mental anguish.

- Any publications arising from the use of this software, including but not limited to academic journal and conference publications, technical reports and manuals, must cite the following two work:

A. Dhall, R. Goecke, S. Lucey and T. Gedeon, "Collecting Large, Richly Annotated Facial-Expression Databases from Movies", IEEE MultiMedia 19 (2012) 34-41.

A. Dhall, R. Goecke, J. Joshi and T. Gedeon, "The Fourth Emotion Recognition in the Wild Challenge 2015: Baseline, Data and Protocols", ACM ICMI 2016.
